Sir,

one of my Albanian lawyers has come to know by chance, during a meeting between lawyers, that after having already contacted the lawyers Andi Memi and Ilir Johollari, you also contacted the lawyer, Elona Selmani via LinkedIn, in order to meet her.

These three lawyers have one thing in common and that is that they have already been the object of "special attention" by the bad guys, appointed by Enel and by Mr. Starace - who reads this in copy - to try, in vain, to draw me into a trap in any way. Enel has always refused to provide the reports and records of those meetings, and today there is even a lawsuit before the Court of Rome regarding this matter. Now, it looks like you are doing the same job again five years later.

As you well know, this is immoral and illegal and contrasts with your role as a former Dutch Public Prosecutor and above all with the role as Resident EU Prosecutor of the IPA 2019 in Tirana in Albania where, with the money of Italian citizens, you are following my criminal trial. In this trial, instead of assisting the Prosecutor so that, following the publication of the ICSID award of 24.04.2019 he should request an acquittal in the criminal proceedings because *"there were significant flaws in the factual basis for the allegations that underpin the criminal investigation"* pursuant to art. 71.1 of the Albanian Code of Criminal Procedure - with the consequent indictment of the Rama Government and its structures – you went so far as to declare at the time of the sentence of the first instance: *"justice has been done"*, after the police had removed my defense attorneys not even allowing them to enter the courtroom to submit their conclusions.

In view of the above, I formally request that you provide me with a list of all the people contacted, all the meetings and correspondence exchanged with Enel S.p.a. and its lawyers and consultants.

For completeness of information, I refer to any and all correspondence that has been exchanged with you concerning this matter.

It is clear that your conduct has already caused and continues to cause me enormous and grave difficulties and prejudices as well as enormous economic damage, in relation to which I reserve all rights and actions in any jurisdiction.

Best regards,

Francesco Becchetti
